### **DETAILED ACTION**

1. This Office action is in response to the amendment filed on March 17, 2006.
2. Claims 1, 10-14 and 16 are pending.
3. Claims 1, 10, 13 and 14 are amended.
4. Claim 16 is new.
5. Claims 2-9 and 15 are canceled.

### ***Response to Amendment***

6. The objection to the Specification is withdrawn as the amendment overcomes the objection.
7. The objections to the claims are withdrawn as the amendment to the claims overcomes the objections.
8. The 112/2<sup>nd</sup> paragraph rejections to claims 1, 10, 13 and 14 are withdrawn as the amendment overcomes the 112/2<sup>nd</sup> paragraph rejections.
9. The 101 rejections to claims 1-15 are withdrawn as the amendment overcomes the 101 rejections.

### ***Claim Rejections - 35 USC § 102***

10. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

11. Claim 16 is rejected under 35 U.S.C. 102(e) as being anticipated by Ahn et al. USPN 6,084,965. (hereinafter Ahn)

12. As per claim 16, Ahn discloses a method of sending a message over a network (fig. 1), comprising the steps of: applying two components of an encryption key to a message to generate two ciphers (y1 and y2), using two blind exponents of the encryption key (r4 and r5), wherein the two blind exponents of the encryption key are generated by adding a random number to each of the two components of the encryption key (r1 is added to a; r3 is added to b); discarding the random number; sending the two ciphers across the network to a receiver. (x, y1, y2 is sent from user A to user B)

***Allowable Subject Matter***

13. Claims 1 and 10-14 are allowed.

### ***Conclusion***

14. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
